

to whom it may concern,

about a month ago i purchased the xm radio for my car and home.i cannot tell you how long i have waited for a service like this to come along.i have been a huge music fan since i was a child.it is my beleif that music is the soundtrack of life.it is just too bad that public radio does not feel the same way.

corp. radio giants such as clear channel comm. does not care about my want and needs as a listener.the stations in my area (jacksonville,fl) and the many other areas that i have traveled to are all the same.the same music,boring dj's,commercial after comercial after commercial after commercial and it all just makes me want to puke.

i have driven cross country 2 times and have only found 2 radio stations that i like.the funky monkey in seattle,wa and 103.1 the buzz in west palm beach,fl.in these travels i drove across texas twice on i-10 and from san antonia to somewhere near elpaso there are no radio stations.NONE!!!!!!unless you speak spanish of course.

i love music and when i turn on the radio that it what i want to hear.in the morning i don't want the likes of lex and terry,john boy and billy,howard stearn,.bob and tom and bubba the love sponge shoved down my throat.I WANT MUSIC!!!!!!!!!!!!!!

the above mentioned disgusts are gone now because of the services that xm radio provides to me and i have no problem whatsoever paying ten bucks a month for it bcause what they give me and countless others is priceless.

now we are under attack by the NAB.i say we because myself and all xm subscribers that i know are a part of something that we beleive in and love and we make up the xm nation and we are xm radio and when you attack xm you attack us.quite frankly we have been under attack by the NAB for long enough.attacked by the lack of variety,repitive playlists,sorry dj's and their screaming commercials,so NAB do us all a favor and just GO AWAY!!!!!!LEAVE US ALONE!!!!WE DON"T LIKE YOU!!!!!!

i would not listen to public radio again unless jesus himself were standing in my living telling me to do so.one last thing before i go.do you know why radio is free?because it sucks!!!thank you for your time...mark a. webb
